10TH

Dr. Cephias Archie received two college degrees from Loyola University in New Orleans, a Bachelor's Degree in English Writing and a Master's Degree in Counseling. Dr. Archie received his Ed. D in Educational Leadership – Higher Education at the University of Houston. In addition to his college degrees, Dr. Archie completed certifications in Basic Mediation Training and Diversity Management.

Dr. Archie possesses more than 15 cumulative years of experience in higher education administration and instruction, obtaining positions and recognition at multiple campuses nationally. Dr. Archie has experience with program development, implementation and assessment within multiple educational sectors. Most recently, Dr. Archie led the State University of New York equity, inclusion and diversity efforts, chairing the system's University Faculty Senate EID Committee. Providing guidance and leadership for all 63 campuses, his wide range of experiences within administration focused to drive system changes state-wide.

Recently leading The College at Brockport's Diversity agenda, Dr. Archie successfully led institutional efforts to attain national recognition as a recipient of the Higher Education Excellence in Diversity Award (Health Professions). Being published in the *Journal of Intercultural Education* and presenting at national and international conferences, his extensive research and content expertise qualifies him as one of the most qualified and EDI leaders in the state of New York and across the country.

Additionally, Dr. Archie has detailed experience in successfully writing grant proposals, being previously awarded educational funding for program implementation within higher educational environments. He also has both qualitative and quantitative assessment program evaluation practice and knowledge, gauging alignment of program objectives with program outcomes, benchmarking program milestones and deficits.

Although highly decorated for leading transformative EDI system efforts, Dr. Archie's passion and immediate impact has been most visible in engaging students, faculty, staff and community members, resulting in building and establishing partnerships that increase access and opportunity for all people.

Through his role as Chief Equity Officer for the City of Rochester, Dr. Archie will continue to positively impact our community.

Dr. Cephias Archie currently serves as the Chief Equity Officer for the City of Rochester.

CONGRATULATIONS, SCHOLARS!

We are so very proud of you!

Belong to something bigger

You're more than your money. And we're more than a bank.
We're your financial partner in this community that works,
lives, hopes and grows together. We have a vision for a Greater
Rochester, and we're investing in it by investing in you.

ESL is honored to support the Urban League of Rochester.
